

# 2027 CYCLING

# VISION BEYOND

**AT BOLLÉ, INNOVATION GOES HAND IN HAND WITH ENVIRONMENTAL RESPONSIBILITY.**

AS A LEADER IN ECO-DESIGN, BOLLÉ IS INTRODUCING 6 NEW ECO-DESIGNED SUNGLASSES AND 7 NEW ECO-DESIGNED OPHTHALMIC FRAMES. WITH THE SS27 COLLECTION, ECO-DESIGN\* NOW REPRESENTS **93% OF THE TOTAL EYEWEAR RANGE (SUN + OPHTHALMIC), ALLOWING BOLLÉ TO EXCEED ITS 2027 OBJECTIVE.**

FURTHER DETAILS ARE AVAILABLE IN THE COMPANY'S **SUSTAINABLE DEVELOPMENT REPORT.**

\*ACCORDING TO BOLLÉ ECO-FRIENDLY CRITERIA (SEE BOLLÉ BRANDS ESG POLICY)

## PLATINUM

A true reference in the world of eye protection, Bollé Safety offers protective glasses trusted by professional workers in demanding industries like automotive, construction, mining, or pharmaceutical. Platinum represents the highest level of expertise in anti fog and anti scratch protection.

With Phantom, Bollé brings this expertise to everyone. A perfect protection with a more performing anti fog and an anti scratch that last 40% more than the standard.

## LIGHTWEIGHT

NXT<sup>™</sup> material is close to the lightest lens material available today, at 14% lighter than polycarbonate. This allows for larger designs with fuller coverage, ultimate protection and utmost comfort.

## AVAILABLE IN PRESCRIPTION

Because everyone's vision is unique, Phantom lenses are available on our RX-able frames, suitable for 99% of prescriptions.

## HIGH IMPACT RESISTANCE

NXT<sup>™</sup> lenses not only protect you 100% from harmful UV rays, but are also built for maximum impact resistance. NXT<sup>™</sup> is one of the strongest materials on the market. Originally adapted from military use - jet canopies and helicopter windshields - lenses are subjected to rigorous high-velocity impact tests.

## OPTICAL CLARITY

Made with NXT<sup>™</sup> material, Phantom lenses raise the optical clarity of our lenses to a new level. NXT<sup>™</sup> material is packed with a lot of features such as optimal clarity, lightweight, high impact resistance, chemical resistance, and of course 100% UV protection. Ideal for a sport use, Phantom lenses will offer maximum protection & comfort of vision for your eyes.

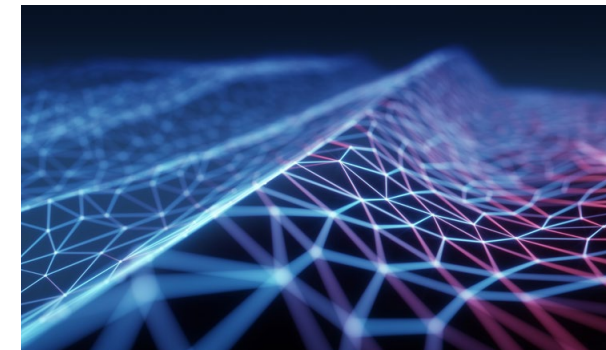

## PHOTOCHROMIC PERFORMANCE

Phantom lens technology adapts to any light condition, ensuring precise visual acuity whatever the weather. The lens tint changes with the light from cat.0 to cat.3. Enhanced vision whatever the conditions.

## HIGH CONTRAST

Bollé has advanced the performance of Phantom lens technology by adding a high contrast filter on its lenses. Available on all Phantom lenses from Cat. 1, the high contrast filter boosts colors and significantly enhance your vision. Whether you are on the road or on trails, high contrast lenses will help you perceive the obstacles.

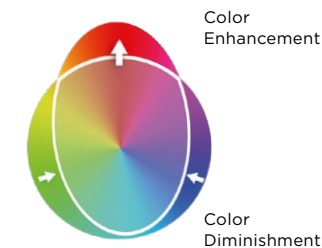

## THE FIRST LENS EVER DEVELOPED WITH ARTIFICIAL INTELLIGENCE.

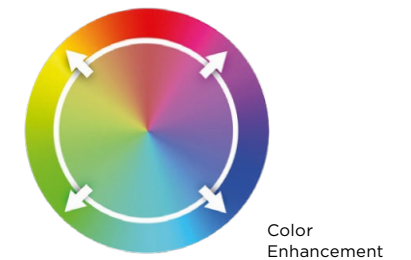

1. Find out which wavelengths to enhance or dampen
2. Design and develop the chemical compounds (pigments) that will absorb the right wavelengths
3. Put together the perfect blend of pigments for the transmission curve we want to achieve

## 20 MILLION COMBINATIONS EVALUATED, 1 UNIQUE FORMULA.

**STANDARD HIGH CONTRAST**

## TRACKDOWN

ULTIMATE

### AVAILABLE TECHNOLOGIES

SIZES : FROM 52-55 CM TO 59-62 CM

Mips® Brain Protection System  
Opti-Dock  
3-position adjustable visor with  
aluminum screws  
AVID Progressive EPS

13 vents for ventilation  
Click-To-Fit™ System 360°  
Anti-twist and slip dividers  
Extended rear coverage

**24% recycled material:**  
100% recycled fabric lining and  
webbing  
50% recycled EPS  
Weight : 380g

Designed for mountain biking, from all-mountain to enduro, the TRACKDOWN MIPS combines extended protection, ventilation and trail-focused features for demanding terrain. Its deep rear coverage helps protect key areas, while the 3-position visor provides space to accommodate goggles when needed.

The Opti-Dock system securely holds sunglasses of different sizes when not in use. The combination of AVID Progressive EPS technology and the Mips® Brain Protection System integrates large ventilation channels while supporting progressive impact energy management. Developed and validated with committed mountain bikers, the TRACKDOWN MIPS is engineered to meet the demands of technical mountain biking.

Inspired by its adult counterpart, the STANCE CROSS JR comes equipped with practical features designed for young riders. A fixed-position visor provides reliable protection, while an integrated mesh helps prevent insects from entering the helmet. Reflective details at the rear and a Click-to-Fit™ system with integrated LED enhance visibility and safety on every ride.  
**Tested and approved by active young riders always ready for the next adventure, the STANCE CROSS JR is designed to support confident exploration on every ride.**

Engineered for high-intensity activities, the SKYRUN is our lightest frame, designed to reduce weight without compromising stability during long efforts. Thermogrip® inserts on the temples and nose provide consistent grip, even during sustained or vigorous movement. The adjustable nose bridge enables a precise fit, ensuring the frame remains correctly positioned as intensity increases. Available with PHANTOM photochromic lenses for controlled adaptation to changing light, or with VOLT High Contrast Enhanced Colour lenses for enhanced contrast and visual precision. Developed and tested with endurance athletes, the SKYRUN meets the demands of sustained performance when efficiency and focus matter most.

Designed for small to extra-small faces, the STRIVER S is suited for both youth and adults seeking a versatile sport frame. Its cylindrical lens with clean lines and sharp angles is built for a wide range of activities, with or without a helmet. The thin, lightweight frame ensures lasting comfort, while the saddle nose and straight, perforated Thermogrip® temples provide a secure fit throughout movement. Developed and tested with active athletes, the STRIVER S delivers dependable support across every session.

# LENS TECHNOLOGY Rx<sup>by</sup> bolle

## Always focused

### A TRANSPARENT & INTUITIVE WEBSHOP

Since September 2022, a more informative and easier-to-use version of the RX webshop has been made available to opticians, to make the ordering process even smoother. You can enter the prescription details of the frame wearer and the webshop will automatically filter the available frame & lens combinations corresponding to the prescription. A lens thickness calculator also helps you to anticipate the best solution for each wearer.

Visit our webshop : <https://rx.bollebrands.com>

AVAILABLE FOR ALL  
TYPES OF FRAMES AND  
DISCIPLINES

Tested and validated under the most extreme  
conditions by our athletes.

AVAILABLE WITH OUR  
SIGNATURE LENSES

AVAILABLE IN 99%  
OF PRESCRIPTIONS

from -8.00 to +6.00 combined powers  
(-4 maximum cylinder)\*\*.

\*For progressive lenses the maximum positive is SPH+ADD.
